

# Joep van Lit

✉ joep.vanlit@ru.nl    📍 Radboud University, Nijmegen, the Netherlands

## Education

---

**Radboud University**, Comparative Political Science

Nijmegen, the Netherlands  
2020 – 2025

**Leiden University**, Political Science and Public Administration

Leiden, the Netherlands  
2017 – 2019

## Experience

---

**Radboud University**, Lecturer

Nijmegen, the Netherlands  
2020 – 2026  
6 years

## Projects

---

### Quantum Computing

2018 – 2018

Quantum computing is the use of quantum-mechanical phenomena such as superposition and entanglement to perform computation. Computers that perform quantum computations are known as quantum computers.

- Quantum Teleportation
- Quantum Cryptography
